

RENTAL SPAS, TERMS AND CONDITIONS

APPLICABLE UNTIL THE SPA IS RETURNED TO SIMPLY SPAS.

Simply Spas Hot Tub Hire requires all persons hiring equipment to have read and understood the contents of this document . If you do not understand the information contained within this document, or require further clarification on said points, please speak to us. It should be noted that you accept the equipment as outlined below and have read/understood all points highlighted within the terms and conditions.

Our seasonal spa hire price is 2500€ for up to 6 months rental. We can retrieve the spa at any time during the 6 months, alternatively if you decide to keep the spa we will invoice you at the end of the 6 month rental period.

Simply Spas will not be held responsible for any damage, injuries or death resulting from the misuse of our hot tubs. We will also not be held responsible for any damage caused by the hot tub to lawns, patios or decking or any water damage to anything whatsoever. We can advise you on any possible problems that could arise but most of it is just common sense.

1. The hot tub must always be filled with cold or lukewarm water, never hot water, and will take at least 24 hours to reach the recommended temperature of between 37c and 39c. Filters must be taken out and cleaned regularly
2. To change water temperature simply press pad down for cooler and up for hotter.
3. The hot tub is designed for 4-6 people. Overloading the hot tub can cause damage.
4. When using the hot tub, remove cover and store carefully. Enter water carefully. Always use plastic glasses while in the spa
5. Over filling the hot tub will cause it to overflow
6. When not using hot tub always replace the cover to retain heat.
7. The hot tub will maintain temperature by itself; although during periods of heavy use or when the cover is removed for an extended period there will be a fall in temperature. Staying out of the hot tub and replacing the cover will allow the water temperature to rise to the desired level.
8. Always leave the hot tub plugged in and switched on in order for the filtration/heating systems to work. If the spa is off for any length of time in extreme cold the spa would freeze. This is catastrophic for a spa and would result in the spa being charged for in full

10. Do not use any electrical items within five feet of the hot tub including telephone.
11. Children must be over ten years of age and accompanied by an adult at all times when using the hot tub.
12. At more than 37.5c you should not spend more than fifteen minutes in the hot tub.
13. Pregnant women and persons with heart disease, circulatory problems, diabetes or low or high blood pressure should consult a doctor before using the hot tub.
14. It is essential that everyone using the hot tub, showers before use and no foreign bodies e.g. grass, earth, sand, stones or sharp objects are introduced to the water. The hot tub will perform better if kept clean, therefore more enjoyable to use.
15. Chemicals will need to be added. We will go through the procedure with you verbally upon delivery and will leave you with information regarding application, handling, storage etc. If you have any questions just ask.
16. Simply Spas will not be responsible for water damage that occurs from hot tubs
17. You are liable for this hot tub and hot tub cover whilst in your custody for any loss or damage. We recommend that you contact your household insurance company to inform them of this hire and ask them to provide cover.
18. If we have to come out to the hot tub whilst on hire to rectify a fault and the fault is found to be down to misuse there will be a call out charge.

Any damage incurred due to misuse or not following the above recommendations must be paid for in full. The renter understands the above information and acknowledges that the use of the hot tub is at the renters' risk. The renter agrees to release this establishment from any and all liabilities incurred with the use of the hot
